Minority Report

1980/81

SUPPLEMENT 3
TO THE
ANNUAL REPORT 1980/81
DENTAL EDUCATION

The information on minority admission policies, enrollment and graduates in United State dental schools contained in this report was gathered in the 1980 Annual Survey of Dental Educational Institutions. The Annual Survey is conducted by the Council on Dental Education of the American Dental Association as part of the accreditation process for dental schools. All United State dental schools participate in the survey. Included in this report is information on total minority enrollment, minority enrollment by race, minority graduates, minority recruitment procedures in each dental school, and administrators to consult at each dental school concerning minority information and recruitment.

Table 1 lists the total minority enrollment for both first year and the entire four years of the undergraduate dental education report. An inspection of the table indicates that there were 772 first year minority students (12.8%) enrolled for the 1980-81 academic year. There were also a total of 2,634 minority students enrolled in all four years. This is an increase of 27 students for the first year and 181 for the total four years.

Tables 2 to 5 report the minority enrollment by race for each of the four years. In the freshman undergraduate class there were 179 black males, 104 black females for a total of 283 blacks or 4.7% of the first year class. There were 125 hispanic males,

35 hispanic females for a total of 160 hispanics or 2.6% of the first year class. There were 11 American Indian males, 1 American Indian female for a total of 12 American Indians or 0.2% of the first year class. There were 228 male Asians, 89 female Asians for a total of 317 or 5.3% of the first year class. This represents an increase of 8 black males, 1 black female, 7 hispanic males, 2 Asian males and 26 Asian females. There was a decrease of 10 hispanic females, 2 American Indian males and 5 American Indian females. The percentage of the first year class increased 0.3% for blacks, 0.6% for Asians. It decreased 0.1% for American Indians while it remained the same for hispanics.

Table 6 reports the total minority enrollment by race for each dental school in the United States. An examination of the table indicates that there were a total of 1,022 black, 519 hispanic, 53 American Indian, and 1,040 Asian minority students enrolled for the 1980-81 academic year. This is an increase of 13 black, 30 hispanic, and 145 Asians. There was a decrease of 7 American Indians.

Table 7 reports the number of minority graduates by race for each dental school in the United States for the academic year 1979-80. There were 116 black male, 74 black female for a total of 190 blacks, 95 hispanic male, 24 hispanic female for a total of 119

hispanics, 13 American Indian males, 1 American Indian female for a total of 14 American Indians, 161 Asian males, 36 Asian females for a total of 197 Asians. This indicates there was an increase of 8 black and 42 hispanic minority graduates over last year. There was also a decrease of 4 American Indian and 11 Asian over last year. There were a total of 520 minority graduates which represent 9.9% of all graduates for 1980. This represents an increase of 1% in minority representation over the 1979 graduating class.

Table 8 lists the minority recruitment activities carried on at each dental school in the United States. A brief summary of activities and programs found at each school is narrated. As can be seen from an examination of the table, a wide variety of programs are conducted. Table 9 lists the Administrators which one should consult concerning minority recruitment, admission and retention programs at each dental school in the United States.

In conclusion it should be noted that there is an inherent difficulty in gathering information on minorities. The question always arises as to the proper choice of ethnic categories to be used. The Council on Dental Education of the American Dental Association has adopted the categories requested by the Department of Health Resources Administration of the Federal Government. Hispanic

at the University of Puerto Rice are not considered minority.

TABLE 8

MINORITY RECRUITMENT IN DENTAL SCHOOLS

UNIVERSITY OF ALABAMA

Minority students are invited to an orientation program for the two weeks prior to the beginning of the first year classes. Per diem support is available to help defer the cost of living during this period. This program gives the students sufficient time to secure living quarters and to adjust socially and psychologically to their new environment. Special courses are offered to prepare the students for the regular courses, to identify any weaknesses in learning skills, and to assist in the development of effective study habits. During their tenure as dental students, each is assigned to a faculty advisor and an upper class student advisor. This provides the opportunity of identifying problems (academic or otherwise) that a student might encounter so that steps can be taken to make the necessary adjustments. Where indicated, arrangements will be made to provide tutorial assistance. Close contact is maintained between health professions advisors at the traditionally Black colleges and members of our Admissions Committee. We maintain an active program to identify students who present the potential of meeting dental school entrance requirements. Representatives of the dental school usually visit the traditionally Black colleges at least once each year to talk with potential students, and an active line of communication is maintained with the appropriate undergraduate school faculty members throughout the year. Application fees are not waived and an interview is required.

UNIVERSITY OF THE PACIFIC

There is no specific financial aid for minority students. Applications fees are not waived and an interview is required.

UNIVERSITY OF CALIFORNIA, SAN FRANCISCO

Applicants receive tutoring in practice sessions prior to taking admissions tests. A summer Orientation Program provides incoming students with 4-5 weeks of instruction in basic dental sciences prior to the beginning of the first quarter of the first year. Through an on-going tutorial program, faculty and students provide individualized instruction to any students requiring such aid. Through the school's federally-funded Office of Student Recruitment and Retention minority dental students conduct an extensive recruitment program in high schools, colleges and community centers, as well as through radio and television public service announcements. Application fees are waived for minority and eligible non-minority students. Interviews are not required.

UNIVERSITY OF CALIFORNIA, LOS ANGELES

Academic aid is offered to dental students at UCLA through the Student Retention Program. This program offers several support services to the educationally disadvantaged student, including tutorial services, personal and academic counseling, special teaching programs such as the Pre-Clinical Introductory Course for Sophomores, modified curricula for students to progress at their own pace, and referrals to the main campus Learning Skills Center. A full-time faculty coordinator with a dental background and experience in counseling organizes and oversees the efforts for student retention in the academic program of the school. Interviews are not required and application fees are waived.

UNIVERSITY OF SOUTHERN CALIFORNIA

The Minority Dental Student Association sponsors an annual pre-enrollment Summer Orientation Program designed to assist entering minority students adjust to dental school. The program is purely optional and is organized and directed by minority faculty members and alumni. In addition, an on-going peer counseling program is available for minority students. Minority members of the Admissions Committee attend health fairs, career days, pre-professional days at various colleges and universities throughout the state, in an attempt to interest qualified minorities. Interviews are required and application fees are not waived.

LOMA LINDA UNIVERSITY

We have a program of free tutoring available to all needy students that gives students the opportunity to withdraw from one or two classes during a quarter to lighten their loads which at the same time extends the length of their program. The University makes a special effort each year to attract minority students to our program. One such effort involves visitation with students on all minority campuses which is a part of our feeder college system. Application fees are not waived and an interview is not required.

UNIVERSITY OF COLORADO

Special assistance is available for minority students who are having difficulty. Tutorial programs are set up on an individualized basis. The University of Colorado Medical Center Office of Minority Student Affairs maintains a year-round recruitment effort. Members of the faculty visit most major colleges in the state especially to recruit minority students. Application fees are not waived and an interview is required.

UNIVERSITY OF CONNECTICUT

There are no special assistance and opportunities programs available to minority students for the 1980-81 school year. There are presently no special scholarship or loan programs directed toward minority students. All students are able to extend their schedules to that point in time required to meet the knowledge and skills requirements designated by the faculty. The school participates in the University Health Sciences Cluster Program for Minority Students, by providing exposure and teaching in human biology. Interviews are required and application fees are not waived.

GEORGETOWN UNIVERSITY

A flexible schedule can be chosen - either a four or five year tutorial program. A special scholarship and loan program is available. A summer enrichment program prior to registration is also available. Special correspondence and recruitment is conducted. Application fees are waived and an interview is required.

HOWARD UNIVERSITY

Howard University is dedicated to the education of minority students. Utilized are a variety of educational methodologies, instructional systems, reinforcement and tutorial programs, and special scheduling to meet the needs of the students. The academic reinforcement program provides a 10 week pre-admission experience for borderline admissions and continued advisory/tutorial experience for students during their time in dental school. The combined degree program BS-DDS allows gifted students to receive both degrees in six years instead of the traditional eight. Also, annual trips are made to local and out-of-town colleges and universities to identify potential dental students. Seminars and workshops are also conducted with high school and college counselors. Application fees are not waived and an interview is not required.

UNIVERSITY OF FLORIDA

Flexible schedule, self-paced curriculum, individualized teaching and self-instructional materials are utilized. Little Brother/Little Sister program in which students accepted for fall admission are contacted by a Big Brother or Big Sister from the immediately preceding class for purposes of guiding the new student. All eligible minority students are made aware of the American Fund for Dental Health Scholarship for minority students. Currently enrolled minority students make visits to selected Colleges and Universities for purposes of recruiting applicants. A "teach-in" is held each year to acquaint minority high school students with the profession and opportunities in it. Application fees are not waived and an interview is required.

EMORY UNIVERSITY

Emory University has no special academic assistance for minorities. Intensive efforts are in effect to recruit minority applicants from the colleges throughout the Southeast. Representatives from the Director of Admissions' office recruit at all schools whose enrollment is predominatly Black. Faculty also participate. Application fees are not waived and an interview is not required.

MEDICAL COLLEGE OF GEORGIA

Available are: 1) flexible schedules which can be a simple or minor modification of the regular curriculum to meet the student's academic need, or major or extensive modification of the regular curriculum creating a 'special student status' that is part-time and reduced academic load. 2) Individual teaching using A-V individualized learning modules are available in various disciplines, individualized special instruction and in some circumstances special advisors. 3) Tutorial programs for students determined to need such support by course directors, funding for tutorial support is provided in part by a grant,"Assurance of Minority Success in Dental School." 4) Special scholarship loan programs in which minorities are eligible for the University System of Georgia Regents' Opportunity Scholarship. The scholarship is a $5,000 award. The school of dentistry has been provided eight scholarships. Exceptional financial need scholsrships are available to first year students. Three of the four scholarships awarded to the school of dentistry went to minorities. The scholarship is for full educational expenses and is awarded at $10,000. Loans are available through the Robert Wood Johnson Loan Program which is targeted to minorities, women and students from rural areas. Also, a full range of loan programs exist for which minorities are eligible. Students who are members of the Student National Dental Association, each summer conduct a two day minority recruitment seminar under the joint auspices of the Office of Associate Dean for STudents (school of dentistry) and the Office of Minority Affairs (MCG). It is funded by the grant "Assurance of Minority Success in Dental School." The annual Students Educational Enrichment Program (SEEP; an 8 week summer program) is a campus-wide program under the auspices of the school of medicine. However, many participants are interested in or oriented toward dentistry. The director of Office of Minority Affiars makes periodic recruitment visitations to colleges and universities in the State of Georgia and neighboring states many of which are predominatly black schools. He represents the Medical College of Georgia at large including counselling with minority students who are interested in dentistry. Application fees are not waived and an interview is required.

LOYOLA UNIVERSITY

Minority students are provided with special advisors who give them intense aid in successfully completing the academic program. Should the student develop problems, flexible schedules, reduced loads and individualized programs are designed to meet the student's personal needs. Each department gives the student extra tutoring as appears necessary to bring the student across the difficult portions of any course. The school sends representatives to high schools and colleges where minority enrollment is high to recruit students for dentistry and Loyola. Loyola minority undergraduate recruitment effort also supports the School of Dentistry minority efforts. Application fees for minorities are not waived and an interview is required. Also, we offer two minority scholarships -- full tuition paid and books and equipment on a loan basis.

NORTHWESTERN UNIVERSITY

Students may arrange individual remediation to have special teaching programs with course leaders as deemed necessary. This arrangement is made by an individual independently or a group of students who determine their performance in a didactic laboratory or clinical area requires additional work or is substandard. Limited grant-in-aid moneys are available for incoming students determined on the basis of financial need. A special effort is devoted to attending recruiting and informational programs related to ethnic minorities and women in dentistry. This year there will be increased participation in college career day programs within the state. All area high schools are encouraged to request participation. Application fees are waived and an interview is required.

SOUTHERN ILLINOIS UNIVERSITY

The SIU School of Dental Medicine offers all students the opportunity to receive tutorial assistance through faculty tutors. Also students are encouraged to participate in counseling and study skills seminars. The dental school also provides tuition assistance to any student in financial need through institutional tuition waiver program. Application fees are not waived and an interview is required.

UNIVERSITY OF ILLINOIS

The University of Illinois College of Dentistry provides flexible schedules and tutorial programs in which minority students can participate if needed. Each student has access to the supportive services of the Student Counseling Service, a division of the Office of Student Affairs, which exists to meet the needs of those students at the Medical Center who either are experiencing academic difficulties or who may wish to improve their academic potential. The College of Dentistry refers its students for individual counseling. Also, special attention is paid to the psychological, academic, and financial needs of minority students. The College's Health Career Opportunity Grant (HCOG) was renewed for another year to continue expansion of recruitment and tutorial services. Special efforts are made to visit colleges and high schools in the State of Illinois for the purpose of informing minority students at these schools of the various careers in dentistry, and specifically, career opportunities at the College of Dentistry, University of Illinois. Application fees are waived and an interview is required.

INDIANA UNIVERSITY

Tutorial assistance and academic counseling are provided when necessary. The School of Dentistry has recently established a Minority Affairs Office to encourage women, racial minorities, and persons from underserved areas; persons who have, traditionally, been less visible in dentistry. A Minority Affairs Officer is available to help prospective students with questions about dentistry, the curriculum, admission requirements, financial aid and individual problems. Also sessions are conducted for groups of minority students. Application fees are not waived and an interview is not required.

UNIVERSITY OF IOWA

The University of Iowa has limited tutorial aid for EOP students and depending upon individual needs, there is the Scholarship from Special Support Services. A representative is sent to Harvard Summer program each year. An interview is required and application fees are waived.

UNIVERSITY OF KENTUCKY

Tutorial assistance is available to all students through the college. However, minority and disadvantaged students are supported through HCOP for tutorial assistance. Some flexibility in echeduling is permitted on an individualized basis in instances of academic difficulty. An 8 week explantory summer program for minority and rural background students is provided. The HCOP recruiter serves all 5 colleges in the Medical Center. Application fees are waived and an interview is required.

UNIVERSITY OF LOUISVILLE

The Office of Student Affairs provides tutorial assistance to students who are experiencing academic difficulties. The Financial Aid Office counsels and assists students in obtaining required financial assistance. Other aids are: visitation to minority high schools, colleges and universities; student recruitment by minority dental students; attendance and participation in Career Days and other student functions attempting to motivate minority students into the field of dentistry; utilization of minority faculty to screen, recommend and interview minority applicants and distribution of minority geared brochures and literature on dentistry. Application fees are not waived and an interview is required.

LOUISIANA STATE UNIVERSITY

There are tutorial programs available for minority students. Members of Admissions Committee serve as advisors if requested and they also participate in most inverview sessions with minority students. Application fees are not waived and an interview is required.

UNIVERSITY OF MARYLAND

Baltimore College of Dental Surgery, Dental School, University of Maryland at Baltimore offers academic aid in the form of special assistance and opportunities for all students. The school currently operates a Summer Program in which minority students receive instruction in Biochemistry, in the Dental Anatomy segment of Basic Dental Science, and in Study Skills. Successful completion of the Biochemistry during the summer allows these students to have more available free time during the first semester to work in other subject areas. The Study Skills involves techniques for taking and organizing notes, correct study habits and for taking various types of examinations.

UNIVERSITY OF MARYLAND (Cont.)

Student tutors are available for the academic portions of this program. If any student has academic problems during the regular academic year, they can be referred to the Special Programs Committee, which designs reduced academic programs in order to provide sufficient time for each student to complete the courses successfully. Tutorial and remedial assistance is available to any student who has need of these services. Members of the subcommittee for Minority Recruitment visit area colleges for career days to encourage applications from qualified minority applicants. Letters are written to those minorities who have taken the most recent DAT encouraging them to apply. Grants-in-aid for resident applicants and the Summer Program also contribute to our recruitment efforts. An Honors Program has been established at UMES to ensure entrance of minority applicants into Dental School following their successful completion of this program. A Health Career Grant is also in effect on the campus to increase the number of minority and disadvantaged students who are admitted to and graduated from the professional schools of Dentistry, Medicine and Pharmacy. Applications fees are waived for Maryland residents only and an interview is required.

HARVARD SCHOOL OF DENTAL MEDICINE

Tutorial programs, tailored to the individual student, are available in the basic sciences and clinical areas. The Harvard School of Dental Medicine also participates in the Harvard Health Careers Summer Program. Each year approximately 25 students who are completing their undergraduate study participate in this program which includes field visits, clinical experiences, and career counseling. Minority recruitment includes Harvard Health Careers Summer Program. No interview is required and application fees are waived.

BOSTON UNIVERSITY

Tutorial programs are available to all students. A Minority Affairs Subcommittee has been established as part of the formal Predoctoral Admissions Committee to address issues specific to minority applicants. Dr. William Walker serves as Minority Affairs Officer for the school, personally reviews all (minority) records, and personally interviews qualified minority/disadvantaged applicants. Dr. Walker extends every effort to participate in area career day functions to inform and recruit the minority/disadvantaged student. Application fees are not waived and an interview is required.

TUFTS UNIVERSITY

We have no special programs exclusively for minority students. Our tutorial programs and individual assistance is available to any student. We participate in the Harvard Summer Health Career Program and the Tufts Summer Health Career Program. Minority students at the dental school produce a Health Career Workshop. An interview is required and applications fees are not waived.

UNIVERSITY OF DETROIT

Tutorial aid is available for minority students at the University of Detroit. All 4 year colleges in the state are contacted and the school of dentistry will present programs or provide counseling for minority students. An open house is held by the school and S.N.D.A. for minority undergraduates interested in dentistry. Applications fees are waived and interviews are required.

UNIVERSITY OF MICHIGAN

An academic orientation program is conducted for the minority students. They receive concentrated courses in human gross anatomy and histology. These courses are handled with the same quality and speed as the regular courses. Minority upperclassmen are used as teaching assistants. Counseling is provided to aid the student in areas of studying, housing, financial assistance, and acclimation to the dental program. The students are evaluated by the instructors throughout the semester and particularly after each examination. Any student who is in academic difficulty is counseled and assigned a tutor. This tutoring is coordinated by the department concerned and the Office of the Dean. Conferences are held between the academic counselor and the tutors to evaluate the student's progress. Minority students are invited to our Career Day Program which is held once a year. We contact a dentists in the student's home town and arrange for the particular student to visit his dental office. We arrange for the minority students to meet some of our minorities in our program and get the dental students view of our program. Application fees are waived and interviews are not required.

UNIVERSITY OF MINNESOTA

The School of Dentistry through the Minority Student Affairs Committee identifies students and faculty who are willing to provide direct tutorial services for students who are having academic difficulty. This tutorial service is provided for specific courses in the curriculum. The school has funds to support the tutorial programs through the Graduate and Professional Opportunities Grant Program. Eleven fellowship grants for underrepresented minority dental students have been awarded through the Professional Opportunity Grant Program. Also available are university gift funds for Health Professions students and scholarship funds in the School of Dentistry with flexible awards feature including use for racial minority students with a financial need. Through the Graduate and Professional Opportunities Grant Program, funds are available to support recruiting trips in the Upper Midwest Region by students and faculty and to support prospective student visits to the campus. Application fees are not waived and an interview is required.

UNIVERSITY OF MISSISSIPPI

The School of Dentistry, University of Mississippi provides equal assistance to all students. Office of Minority Affairs makes contacts. Applications fees are not waived and an interview is required.

UNIVERSITY OF MISSOURI - KANSAS CITY

Tutorial programs are available to all students either in a group setting or on a one-to-one basis. Workshops include: test taking, study skills, note taking, and scheduling. The program is continuing on-going contracts with colleges and community-based organizations, as well as developing new contracts within the four state area served by the University in order to increase the number of minority and female applicants. Interviews are required and application fees are not waived.

WASHINGTON UNIVERSITY

Application fees are not waived and an interview is not required.

CREIGHTON UNIVERSITY

Fleixble curriculum schedules are available whereby minority or other students are required to complete all dental courses satisfactorily, but under a schedule and rate commensurate with their abilities. Individualized teaching and tutorial programs are provided if necessary. The dental school has representation on the Committee for Minority Group Education in the Health Sciences, which was formed to recruit minority group students for health careers. This Committee plays an active role in recruiting, distributing preliminary applications and interviewing prospective students. Application fees are not waived. An interview is required.

UNIVERSITY OF NEBRASKA

Application fees are not waived and an interview is not required.

FAIRLEIGH DICKINSON UNIVERSITY

Flexible schedules, extended academic programs and scholarship loan programs are available. Several college visitations are made in the interest of long-range recruitment of minority students. An interview is required and application fees are not waived.

NEW JERSEY DENTAL SCHOOL

The academic aid which is provided includes remedial programs, tutorials, individualized teaching, special student status (flexible schedules), loan programs, (small emergency loans) and faculty advisors. Applications fees are waived and an interview is not required.

COLUMBIA UNIVERSITY

There is no special assistance other than regular financial aid. There are also no special programs. Plans are under way to develop a recruitment program. Application fees are waived and interviews are required. (West Coast applications are interviewed in California.)

NEW YORK UNIVERSITY

New York University offers a self-pacing audiovisual education area that provides study carrels, projectors, and films on basic science subjects. There are approximately 14 partial loaner instrument kits and some textbooks that are available for minority students. Group tutorials are available to all marginal students and may be supplemented with individualized tutorials when deemed necessary. In addition, there is a formal Student Advisory Council whereby the psychological, social and academic progress is monitored on a 10-1 student-faculty ratio so that corrective measures and appropriate referrals can be instituted on an ongoing basis. On site visitations to Region II secondary schools and colleges made by volunteers ie. alumni, faculty. Application fees are not usually waived for minority students. Limited special scholarship funds and financial aid are available. There is early identification and early acceptance of minority and low income students from the College of Staten Island. Counseling of college students before they apply to dental school, including how to take the DAT is available. Application fees are not waived and an interview is required.

STATE UNIVERSITY OF NEW YORK AT STONY BROOK

No specific academic assistance programs for minority students exist. Tutorial programs in individual subjects exist for all students showing weakness or deficiency in the basic science courses. Additional summer clinic sessions are available for students in Year I, II and III as necessary. There is no application fee and an inverview is required.

STATE UNIVERSITY OF NEW YORK AT BUFFALO

Tutorial Programs and Special Loan Programs are available. An annual "Career Day" is held for interested minority students. Visits are conducted by minority dental students to local high schools. Application fees are not waived and an interview is required.

UNIVERSITY OF NORTH CAROLINA

The dental school curriculum is flexible in that students may graduate early or may take longer than the typical four-year period of study for their graduation. The school sponsors a summer program for entering students which is designed to review and reinforce areas in the Basic Sciences; develop and strengthen reading, study, and test-taking skills; become familiar with a professional environment; and introduce the participant to certain dental techniques and procedures. The dental school sponsors a bi-annual minority recruitment program for participants (faculty and students) from the minority institutions in North Carolina. Faculty and students from the dental school visit minoirty institutions during the year and participate in programs at those schools. The Summer Program now enrolls predental students, whose participation in the program can be very beneficial to their future acceptance into dental school. Application fees are not waived and an interview is required.

OHIO STATE UNIVERSITY

Individual counseling is available through the Biological Science and Dentistry departments. Tutorial aid is provided by the College of Dentistry when needed with graduate students as tutors. The University provides a special minority grant and loan program administered by the University Financial Aids Office. The College of Dentistry has a black coordinator for minority and disadvantaged persons. The office has a full-time secretary and a part-time work study person. The office is concerned with recruitment and retention of minority students. Application fees are not waived and an interview is required.

CASE WESTERN RESERVE UNIVERSITY

Academic aid programs are offered through the Office of Student Affairs within the dental school. During the school year, all students may take advantage of a tutorial program consisting of individualized instruction in any area of basic science, preclinical techniques, and oral biology. Also, appropriate assistance is offered on an individual basis for any specific problem which may

CASE WESTERN RESERVE UNIVERSITY (Cont.)

arise throughout the student's education, including clinical areas. Programs are coordinated by the Office of Student Affairs. Two of the faculty associated with the office are minority persons and there is also a chapter of the SNDA to assist Black American students. We are collaborating with the Medical School in the development of a Health Professional Career Program (Junior High through Professional School). Several programs educating high school students were conducted in the past year. We are actively working with the Ohio Dental Association to increase the number of minority students to the profession of Dentistry. An interview is required and application fees are waived.

UNIVERSITY OF OKLAHOMA

Tuition Fee Waiver Scholarships - (approximately $1,725 each of the first two years of study) are available to minority students entering the College of Dentistry. Professional Degree Assistance Grant provides a grant of $3,500 to minority students for their first year of study. The program is sponsored by the Oklahoma State Regents for Higher Education. The Health Sciences Center presently has a statewide early identification, recruitment and tracking program for minority students. A special summer institute is held at the HSC to improve academic, study and test skills of potential minority applicants. Application fees are waived and an interview is required.

ORAL ROBERTS UNIVERSITY

Any special assistance, tutorial programs, individualized teaching, etc. are given to any student who may have such a need when approved by the Dental School, without regard to sex, age, race, national origin, etc. All academically qualified prospective dental students who apply are recruited by telephone and letter without regard for sex, race, age, national origin, etc. Application fees are not waived and an interview is required.

UNIVERSITY OF OREGON

Counseling and tutors are available. The primary objective of the School of Dentistry is to consider for admission motivated and qualified applicants from under-represented minority groups who are disadvantaged for economic, educational or other reasons. The recruitment program has a staff to assist prospective students with career-counseling, financial aid information, and application procedures for Black, Chicanos and American Indians who are interested in pursuing careers in dentistry or dental hygiene. Application fees are not waived and an interview is required for Oregon residents only.

TEMPLE UNIVERSITY

Academic aid is tailored to the specific needs of an individual student. Each case of need is judged on its own merit. Flexible schedules, individual attention by one or more faculty persons, specially arranged laboratory sessions, seminars, and/or any other appropriate forms of assistance are made available when the need is identified. Temple University School of Dentistry corresponds with counselors and visits colleges whose enrollments are predominantly Black; participates in special programs for minority students interested in the health professions. Application fees are not waived and an on-campus interview is not required.

UNIVERSITY OF PENNSYLVANIA

All financial aid (loans, scholarships) is dispersed according to financial need regardless of minority status. Minority students are sent information regarding the American Fund for Dental Health Minority Scholarships. One exception - AFCON minority scholarship awarded to a resident of Pennsylvania who is a third year student, of $1,000 on an annual basis Application fees are waived and an interview is required.

UNIVERSITY OF PITTSBURGH

Tutorial programs for didactic, pre-clinical and clinical subjects are conducted. Special need reading and remedial programs are also scheduled. Tutoring is provided in study skills in order to decrease test anxiety. Faculty and students visit high schools and colleges. Members of the minority committee attend special meetings throughout the county. They also visit predominantly Black colleges. There is a full time Assistant Vice Chancellor in the Health Professions who is an active recruiter. We contact student identified in the DAT report and attend the Harvard conferences. Application fees are waived and an interview is required.

MEDICAL UNIVERSITY OF SOUTH CAROLINA

Tutorial assistance in the basic science and clinical areas is available to minority students. Most of our minority students have, at one time or another, used this service. Special attention is given to minority students on several of our loan and scholarship programs due to the special need for minority professionals in South Carolina. We do not have any special recruitment programs at this time, but we do work with pre-dental advisors in arranging visits to our school for minority students interested in dentistry. Application fees are not waived and an interview is required.

MEHARRY MEDICAL COLLEGE

We do have a pacer curriculum in which all students are required to complete all dental courses satisfactorily but under a schedule and rate commensurate with their abilities. We also have Preceptors who aid the student in his studying habits. The Director of Admissions, Alumni and Faculty are invloved in special recruitment programs. Application fees are not waived and an interview is not required.

UNIVERSITY OF TENNESSEE

The academic progress of the first year student is monitored in order to obtain an early identification of those who may need academic aid. Personal and academic counseling are provided those in need by trained counselors within the Department of Behavioral Science. Additional assistance is available in the form of tutorial services and/or self-instructional supportive materials. In the event of course failure, a remediation program may be desiqned on an individual basis, for completion during a special summer session. Annual travel is made to all colleges in Tennessee that have a large number of minority students, including representatives from the University Office of Minority Affairs, who has arranged meetings with predental advisors and interested students. Also, we participate in a weekend conference sponsored by the UTCHS Minority Faculty-Staff Association, in which interested students are given information concerning a career in the health professions and are urged to apply to UTCHS. Interviews are required and application fees are not waived.

BAYLOR COLLEGE

All students are given the same consideration. Application fees are not waived and an interview is required.

THE UNIVERSITY OF TEXAS AT HOUSTON

Flexible schedules and individualized teaching are available in the self-directed instruction program. Representatives from the school visit predominantly Black campuses when invited by those campuses. Application fees can be waived based upon income. On-campus interviews are required.

UNIVERSITY OF TEXAS AT SAN ANTONIO

Special assistance is available to all students, (not only minority students), whose academic performance is below acceptable standards but is high enough to merit continuance in dental school. The Special Studies Committee prepares altered curriculums with tutorial and advisor assistance on an individual basis. Members of the Admissions Committee serve as liasons to the Texas Colleges. Usually this is at the colleges' request. The Chairmen of the Task Force for Disadvantaged Students initiate several liason trips to Texas Minority Colleges. This is a sub-committee of the Admissions Committee. Application fees are not waived and an interview is required.

VIRGINIA COMMONWEALTH UNIVERSITY

Dental school is participating in a Health Career Opportunity Program Grant which provides resources for intensified high school and college minority student recruitment efforts; including printed and aural information, health career days, practical work experience greater accessability to ethnic practitioners. Application fees are not waived and an interview is required.

UNIVERSITY OF WASHINGTON

Split first year (first year in two years) is available to any student with approval of dean. In practice, usually by minority students, it allows time for remedial work, etc. Some tutorial money is available to minority students through a Health Sciences fund grant. Dental school tours are encouraged. Visits are conducted at schools, career fairs, Health Science Open House, dental health activities, upon invitation. Brochures are mailed to directors, teachers, advisors of youth-oriented groups. Dental school faculty, staff and students participate on a volunteer basis. There is no application fee. An interview is required, but a telephone interview is sufficient.

WEST VIRGINIA UNIVERSITY

A flexible curriculum scheduling is provided which is self-paced in the pre-clinical and clinical disciplines. The student advisory system provides the opportunity for students to obtain special assistance and advice on any matter affecting their academic performance. Special tutorial opportunities are provided as needed. The school employs a full-time recruitment coordinator who assists the Recruitment Committee in their activities with regard to locating and motivating minority and rural students. He also assists graduates-to-be by indicating appropriate practice opportunities. The dental school participates in the Health Professions Summer Program, (Harvard University). Application fees are waived and an on-campus interview is required.

MARQUETTE UNIVERSITY

Marquette University School of Dentistry offers tutorial services and individualized sessions with basic science faculty. Flexible schedules are available to any individual who may need a lighter load to be academically successful. An emergency fund is available to students on a loan basis. A grant-in-aid program is available to help minority students with their dental school expenses. The dental school actively recruits in the State of Wisconsin and the Midwest. Brochures and posters are distributed nationwide. Dental Admission Test workshops and dental career seminars are part of our motivational programs for minority students. Application fees are waived and an interview is not required.

UNIVERSITY OF PUERTO RICO

The University of Puerto Rico does not classify students by ethnic, racial, gender or religious groups. Application fees are not waived and an interview is required.

Continuing Education in Dental Schools

1980/81

SUPPLEMENT 6
TO THE
ANNUAL REPORT 1980/81
DENTAL EDUCATION

BEST AVAILABLE COPY

The information on Continuing Education offered in the United States Dental Schools contained in this report was gathered from the 1980 Annual Survey of Dental Educational Institutions. The annual survey is conducted by the American Dental Association as part of the accreditation process for dental schools. All United States dental schools participate in the survey. Included in this report is information on courses offered, enrollment, faculty and administration of continuing education in dental schools; types of courses offered, namely basic science, clinical science, and dental auxiliary; facilities available for continuing education in dental schools, in dental clinics or hospitals, and elsewhere.

Table 1 reports general information regarding continuing education in dental schools during the 1979-80 academic year. Column 2 reports the number of courses offered at each school. A total of 2,571 courses were offered for an average of 43 courses at each school. The range, however, spread between 2 at S.U.N.Y. at Buffalo to 197 at the University of California, San Francisco. Column 3 indicates the percent of courses that included clinical participation. The range of courses at each dental school which include clinical participation spread between 0 to 75 at the University of Illinois. Only 4 schools offer courses with no clinical participation. Column 4 indicates the total enrollment in courses

at each dental school. The range of total enrollment spread between 46 at the Creighton University to a high of 6,752 at the University of California, San Francisco. The mean total enrollment for all schools for the 1979-80 academic year was 1,406. Column 5 indicates the total number of instructors from the dental school who participated in continuing education courses. The mean total of participating instructors for all schools was 45. Column 6 indicated the total number of instructors from outside the dental school faculty that participated in continuing education courses at each dental school. The mean number of outside faculty for all schools was 25. This indicates that on the average, about 64% of the continuing education faculty was drawn from the dental school while 36% was drawn from the outside. Column 7 indicates the percentage of time the Direcotr of Continuing Education devotes to continuing education at each school. An inspection of the table indicates that 21 schools have a full time continuing education director.

Tables 2, 3, and 4 report the type of continuing education in basic science, clinical science and dental auxiliary offered at each dental school in the United States. Table 2 indicates that on the average 3.2 basic science courses were offered at each school with a mean participation of 24.2. There were 11 schools

that did not offer continuing education courses in basic science. The average total number of days duration for the courses in basic science was 6.2. Table 3 indicates that on the average 25.3 clinical science courses were offered at each dental school with a mean participation of 48.7. There was only one school, S.U.N.Y. at Buffalo which did not offer any continuing education courses in clinical science. The average total number of days of instruction for the courses in clinical science was 53.0. Table 4 indicates that on the average 7.0 courses for dental auxiliaries were offered at each dental school with a mean participation of 22.8. There were 8 schools that offered no courses for dental auxiliaries. The average total number of days of instruction at each school for the courses of dental auxiliaries was 13.8.

Table 5 reports the facilities available in the dental school for continuing education programs. Column 2 indicates the percent of courses that include clinical participation. There were 5 schools that offered no courses with clinical participation. The range of courses offered with clinical participation spread from 4 to 75 with a mean of 29.8. Column 3 to 10 indicates the types of facilities available at each dental school for continuing education. There were 49 dental schools that had patient and case records available, 47 dental schools that had x-ray and laboratory reports

available, 57 dental schools that had laboratory available, 57 schools that had operatories available, 54 dental schools that had the dental library available, 59 schools that had conference rooms available, 58 schools that had classrooms available, and all 60 schools had audiovisual aids available for continuing education courses.

Table 6 and 7 report the facilities available in outside clinics or hospitals and at other locations where dental schools offer continuing education courses. As one would expect availability of facilities for clinical participation drop off as one leaves the dental school. An examination of the tables indicate this shift of availability of facilities.

Dental School Admission Information

1980/81

SUPPLEMENT 7
TO THE
ANNUAL REPORT 1980/81
DENTAL EDUCATION

BEST AVAILABLE COPY

The information on admissions and admission policies of United State Dental Schools contained in this report was gathered from the 1980 Annual Survey of Dental Educational Institutions. The Annual Survey is conducted by the American Dental Association as part of the accreditation process for dental schools. All United State Dental Schools participate in the survey. Included in this report is information on the number of applications received by dental schools, the academic qualifications of first year students, general admission requirements, advanced placement for transfer students, first year tuition and annual related educational expenses, and combined D.D.S. and other degreed programs in U.S. Dental Schools.

Table 1 reports the total number of applications filed at each individual dental school for admission into the 1980-81 freshman class. The total number of applications filed was 52,218. This is a decrease of 11.1% from the number reported last year (58,715). There were a total 42,663 (81.7%) applications filed by males and 9,555 (18.3%) filed by females. The first year enrollment is also reported in table 1. There were 4,836 (80.2%) males and 1,194 (19.8%) females accepted in the 1980 freshman class. Therefore, the application/acceptance ratio for males and females was about the same. This indicates an absence of bias in the admission process in dental schools.

Table 2 reports the Dental Admission Test (DAT) and Grade Point Average (GPA) for the 1980-81 freshman class. The mean DAT academic average was 4.79, with 23 schools reporting a grade of 5 or better. The mean DAT-PMAT average was 5.00, with 37 schools reporting a grade of 5 or better. Both the academic average and the PMAT average decreased slightly from that for the 1979-80 freshman class. The mean predental total GPA for the 1980 entering freshman class was 3.25 while the mean predental science GPA was 3.06. Again both the total and the science GPA average for the 1980 class dropped from that for the 1979 entering class whose mean GPA was 3.27 and 3.20 respectively.

Table 3 reports the general admission requirements for the 60 U.S. dental schools for the 1980-81 academic year. An examination of the table indicates that there are 13 dental schools which require at least 2 years of predental education, 41 dental schools which required at least 3 years of predental education and 3 dental schools which require 4 years of predental education. There are 46 schools that require a letter of evaluation or recommendation from a predental advisor. Forty-eight schools require an interview for admission. The last column in the table indicates the percent of applicants that were interviewed. To obtain the number interviewed this percent can be multipled by the total number of applicants found in Table 1. (For example, Alabama interviewed 36% of their

applicants (350) or 126 applicants of which 72 were actually accepted into the freshman class.)

Table 4 reports the provisions for accepting transfer students or students with advanced degrees in the basic science. Column 2 indicates that 36 schools will accept transfer students with advanced placement. Column 3 and 4 indicate whether the advance placement pertains to certain courses only or to an entire term. Column 5 indicates whether advanced placement is granted for stuents with a Ph.D. in the basic sciences while column 6 indicates whether the same is granted to students with a master's degree. There are 21 dental schools granting advanced placement for a Ph.D. while 17 dental schools will do the same for a master's degree.

Table 5 reports the first year tuition and related educational costs for the 1980-81 academic year. Column 2 and 3 indicate the resident and non-resident tuition, column 4 indicates the amount charged for general fees for the 1st year, columns 6 to 8 indicate other educational costs for the 1st year. The average first year tuition for all schools is $4,393 while that for public schools is $2,117 and private schools is $7,578. If all costs were included, the mean first year cost for all schools would be $7,517 while the mean for public schools would be $5,231 and the mean for private schools would be $10,717.

Table 6 reports the dental schools which offer a combined D.D.S. and other degree program. An examination of the table indicates that 11 dental schools offer a combined D.D.S.-Ph.D. program, 10 schools offer a combined D.D.S.-M.S. program, 4 schools offer a combined D.D.S.-M.P.H. program, 2 schools offer a combined D.D.S.-M.D. program and 1 school offers a combined D.D.S.-M.B.A. program.

Compact Agreements Between States & Dental Schools

1980/81

SUPPLEMENT 8
TO THE
ANNUAL REPORT 1980/81
DENTAL EDUCATION

INTRODUCTION

The government of a state that does not possess a dental school, or a sufficiently large one, may enter into a compact agreement with a dental school, and through this compact a specified number of students from that state will be educated at the dental school in consideration for an agreed remuneration.

States which are members of higher education interstate compacts may contract with a compact agency for the reservation of entering spaces in dental schools. A fee for each student admitted is paid by the state to the compact agency and later transmitted to the dental school. There are two such organizations at present: the Western Interstate Commission for Higher Education (WICHE) and the Southern Regional Education Board (SREB)

The states participating in the WICHE exchange in dentistry are: Alaska, Arizona, Hawaii, Idaho, Montana, Nevada, Utah, and Wyoming. Under the WICHE Student Exchange Program, the annual support fee rate per academic year is $10,300. For accelerated, year-round programs, the annual payment is four-thirds of the academic year rate. The seven participating schools are all entirely WICHE exchanges. Those schools are: Loma Linda, UCLA, Univ. of California, S.F., Univ. of the Pacific, Univ. of So. Calif., Univ. of Oregon, and Univ. of Washington. Students pay resident tuition in public institutions and one-third of regular tuition in private institutions.

In the SREB Program, students who are residents of Alabama, Arkansas, Florida, Louisiana, Maryland, Mississippi, North Carolina, Tennessee, and Virginia and who are admitted to regional dental schools under the agreed entering state quotas pay their own tuition, but at in-state rates, or, in private schools, receive a reduction in tuition. The 1980-81 fee paid to the dental school for each student accepted under this agreement is $4,750 per year.

Table 1 describes the distribution of students and fees by states which have entered into compact agreements while Table 2 describes the same data by school.

Appendix A lists the distribution and supporting fees by state and school for those states and schools which belong to the WICHE program. Appendix B lists the states and schools participating in the SERB program.
